

COMPENG 2SH4 Project – Statement of Contribution

Your Group Name _____ 404 Partner Not Found _____

Your Name _____ Zunairah Binte Hasan _____

Your Team Member's Name _____ Bishal Sarker _____

You must complete this statement of contribution without discussing it with your project partner, i.e., individually. Your statement should be concise (at most one-and-a-half page). It has three parts:

1. Tell us about your own contribution to the development of your COMPENG 2SH4 project. For example, you can tell us about which project iterations (as mentioned in the project manual) and C++ project classes that you worked on and completed. You can provide a concise answer either in paragraph form or through bullet points.

- I completed Iterations 1B, 2A, 2B, 3 feature 1

2. Repeat Part 1 above but this time tell us about your project partner's contribution to the development of your COMPENG 2SH4 project.

- 1A, 3 feature 2, 3 feature 3, Peer evaluation report

3. Tell us about your experience in your first collaborated software development through this project – what was working and what wasn't. If you are a one-person team, tell us what you think may work better if you had a second collaborator working with you.

My experience was good with Bishal as we coordinated well in dividing and completing the iterations individually. We also communicated and worked together on features 1 and 2, helping each other with any minor bugs we had in the feature we were working on. We communicated well throughout the project and ensured both of us were on the same page especially regarding iteration 3 as it required a lot of teamwork.
